Category:	Gameplay		
Target version:			
Version:	0.19	**Language:**	English (US)
Platform:		**Mod Related:**	No
Expansion:			

Description

I'm not sure if this is intentional, but from within the cockpit no effects can be seen.
Only tested with the heat effects, unconfirmed mach effects

History

I have witnessed on various accounts that there is reentry effect in IVA. I have seen it on streams and in game for myself. It all depends on your SPEED, the faster you are the more intense the effect. Also make sure that the effect is ON in the Settings Menu.
