Kerbal Space Program - Feedback #10209

All probe cores and kerbals have all SAS in sandbox

Description

When in Sandbox mode, all the probe cores appear to have the full range of SAS modes even though the part descriptions say they don't, and non-pilot kerbals have all SAS modes available as well. I assume the kerbals are intentional, but I don't think the probes are supposed to do that.

History

#1 - 07/29/2016 09:04 AM - sal_vager

- Status changed from New to Not a Bug

- % Done changed from 0 to 100

No that's actually expected, it'd be a bug if they were not working in sandbox.

#2 - 07/29/2016 09:13 AM - sal_vager

- Tracker changed from Bug to Feedback

- Status changed from Not a Bug to New

- Severity changed from Normal to Low

- % Done changed from 100 to 0

It would be good though, changing to a feedback item :)
