Description

I have quicksaved multiple times to retain progress I have been working for hours on, and everytime I reload from game crashes, the quicksave is an old save without my progress.

Please fix this

Please please please, for the love of everything holy, fix this asap. I just spent 3 hours on a mission, and despite my multiple game quicksaves from both the mission and the space center, the save file is not keeping my most up-to-date filesave.

Bug [#10171](#) is a very accurate representation of what I am experiencing.
