<b>Platform:</b>	Linux	<b>Mod Related:</b>	No
<b>Expansion:</b>			

#### Description

Several times, I've observed objects falling down through the ground on Mun.

Appened with debris, and a Kerman (when I was controlling another kerman near this one)

I was able to switch to the falling kerman and took these screenshots.

Observed on Linux 32bit but absolutly not sure it's plateform specific...

#### History

##### #1 - 02/15/2014 07:27 PM - THESWATTAM

This bug seems to be related to Bug [#2000](#) which is of crafts sinking through minmus's surface upon landing, then exploding, it is possible to replicate this by going eva with physics acceleration to 4x and walking on the surface, and walking (most often on slopes). Also it occurs on windows, too.

- Status changed from New to Need More Info

Hi guys, can you please retest this in a current build, it should no longer occur.

I haven't seen this bug for ages (= lots of versions). I recommend to close this bug.

##### #4 - 11/20/2015 07:54 PM - Squelch

- Status changed from Need More Info to Resolved

- % Done changed from 0 to 100
