

Kerbal Space Program - Bug #1167

Smoke following space ship

07/31/2013 03:50 PM - marsfan

Status:	Closed	Start date:	07/31/2013
Severity:	Unworthy	% Done:	100%
Assignee:			
Category:	Camera		
Target version:			
Version:	0.21.1	Language:	English (US)
Platform:	OSX	Mod Related:	No
Expansion:			

Description

Build any rocket and launch it into a 100 km orbit. During launch a small amount of smoke is going to appear and disappear along your rocket. It will look like the attached pictures.

History

#1 - 08/13/2013 11:11 AM - marsfan

I have confirmed that this will happen even if it is a clean vanilla install.

#3 - 07/17/2016 09:24 AM - TriggerAu

- Status changed from New to Needs Clarification

#4 - 07/17/2016 09:46 PM - Claw

- Status changed from Needs Clarification to Closed

- % Done changed from 0 to 100

Fixed!
