I have the exact same bug

#2 - 09/30/2016 07:58 PM - Hhhhh

I haven't been able to play ksp for a week now this needs to be fixed

- Status changed from New to Needs Clarification

This usually means you have a corrupt or unloadable save file in your saves folder.

Back them up or copy them elsewhere out of your ksp folder and copy them in one by one restarting KSP until you find the one that is causing the problem.
