

Kerbal Space Program - Bug #12867

Drills broken in 1.2.0.1569 on linux

10/07/2016 03:44 AM - SchroedingersHat

Status:	New	Start date:	10/07/2016
Severity:	Normal	% Done:	0%
Assignee:			
Category:	Gameplay		
Target version:			
Version:	Not Applicable	Language:	English (US)
Platform:	Linux	Mod Related:	No
Expansion:			

Description

After updating to prerelease build 1569 Drill-O Matic drills give the message "no ground contact" unless they are placed at right angles.

How to reproduce:
Create a ship with a Drill-O Matic part in any normal layout.
Land the ship on a body (tried minimus and Kerbin)
Extend the drill

If the drill is at right angles (as in the screen shots) it will extend correctly.

History

#1 - 10/07/2016 03:46 AM - SchroedingersHat

Additionally the drill-o matic (when placed at right angles so it will extend) and the drill-o matic jr (when placed normally) give an "Insufficient power" message when started no matter what batteries or cooling is available on the ship.

#2 - 10/07/2016 03:47 AM - SchroedingersHat

This message happens when there is no ore storage available, both drills work when there is an ore tank, although the drill-o matic still needs to be placed sideways
