

Kerbal Space Program - Bug #13244

Crash to desktop during atmospheric flight

11/16/2016 09:50 PM - THuddles

Status:	Closed	Start date:	11/16/2016
Severity:	Normal	% Done:	100%
Assignee:			
Category:	Application		
Target version:			
Version:	1.2.1	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:			

Description

Randomly during atmospheric flight on Kerbin the game will crash to desktop. Generally this happens after switching from map view, but also occurs when panning the POV with the mouse.
I have rolled back my gpu driver with no change; In addition, Steam says that 1 file fails to verify when I've checked the integrity of the game cache after each crash.
