When in the orbital map, backspace used to refocus onto the flight vehicle, it don't in 1.2.1			

History

#1 - 11/30/2016 06:28 PM - KerbalEssences

This is more a feature than a bug. The hotkey was moved from Backspace to the "Previous Vessel" button which is [on an english keyboard layout if you haven't changed the stock config.
