

Kerbal Space Program - Bug #13356

Air Intake Bug

12/02/2016 08:20 AM - LeashMeBaron

Status:	Closed	Start date:	12/02/2016
Severity:	Low	% Done:	100%
Assignee:			
Category:	Physics		
Target version:			
Version:	1.2.1	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:			

Description

Seems pre-cooler (nacelle also) doesn't intake air while on the wing, but the shock cone intake in front of it does. This may be a placement issue. Need more info or confirmation.
