Description

Hello, as far as I am aware "Dessert" is the comical, punny name of the new launch pad and runway.

There are some instances in the game where it is spelled "Desert". Sometimes all one word "DesertLaunchSite" and sometimes with spaces.

The following screenshots are from the opening moments of a career save, simply spawning an pod at the new location with Jeb in it.

Did a quick check and found the same issues with the airfield as the launchpad has.

These typos still exist in 1.4.4 (MH 1.3)

I checked just now, this seems to have been fixed somewhere between 7 months ago and now but was left as "investigating".

Setting this to updated as "investigating" makes no sense, its as closed to "closed" as I can make it.
