Version:	0.23	Language:	English (US)
Platform:	Win32	Mod Related:	No
Expansion:			

Description

When filtering science in the science archives, there is a minor bug. If you select the farside crater biome by clicking Kerbin, Mun, Farside Crater (biome); science collected from the east farside biome also shows up.

History

#1 - 01/12/2014 02:10 AM - TruePikachu

Right now, I'm assuming that there is something like a grep in how the filters are applied. For example, if this were SQL, what might be happening is
SELECT * FROM experiments WHERE body='Mun' AND biome REGEXP 'Farside Crater';
when what is intended is
SELECT * FROM experiments WHERE body='Mun' AND biome='Farside Crater';

I can't test this theory with the tools and Science I have, but if my guess is correct, Minmus would also have the problem, with the Flats and the Great/Greater/Lesser Flats.

- Status changed from New to Confirmed

- % Done changed from 0 to 10

Confirmed, both for Mun's Farside Craters and Minmus's Flats.

#3 - 07/14/2015 05:37 PM - niftyfingers

confirming this still happens in 1.0.4.861
