

Kerbal Space Program - Bug #28578

Saving or launching rocket without any part in editor results in exception

11/12/2021 06:24 PM - SenkrechtMarlon

Status:	New	Start date:	11/12/2021
Severity:	Low	% Done:	0%
Assignee:			
Category:	Editor		
Target version:			
Version:	1.12.1	Language:	Deutsch (German), English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground, Core Game, Making History		

Description

I have a pretty nervous finger and sometimes when i try to load a craft i hit the "launch" or "save" button.
I know its my bad but the game crashes everytime.

Is it because ive installed some mods resulting in this or is this in the stock game?

PLS CHECK, ty lovely squad team <3

*maybe mod related if u cant reproduce it

I am not Squad...but I don't have this problem so I assume its mod related. Do you have any mods that use the editor? the new folder system might be the cause of some conflict
