Target version:			
Version:	1.12.3	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Breaking Ground, Core Game, Making History		

Description

The description of the Materials Study in Duna's Highlands reads as follows:

"

Materials Study from Duna's highlands:

The sample computer processes the results.

It's massive red eye seems to be at home here as it slowly, ominously, blinks.

"

The typo / grammar error is in bold, "It's" should be "Its".

From the attached image it is obvious that my game is modded, but I doubt that the mod would interfere with this. If it does, I am very sorry.
