Version:	1.12.3	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Core Game		
Description			
<p>Hi, I am having issues with the staging in the Assembly building with staging when trying to move different components about on the staging list they won't go into the boxes whether it's a new one I have created or it's an existing one, this also seems to be the same even if I try to edit the staging while on the launch pad or in flight I am fairly new to the game but feel this is something with the game rather than it being related to my actions</p> <p>thank you for taking the time to read my message</p>
