

Kerbal Space Program - Bug #28666

Controller axis not saved

10/22/2022 10:09 PM - dorianessl

Status:	New	Start date:	10/22/2022
Severity:	Low	% Done:	0%

Target version:			
Version:	1.12.3	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Core Game		

Description

I am using a DualShock4 controller connected via Bluetooth.

When setting a new axis assignment in the settings controls menu the dialog shows the axis I moved. I then press apply. When I open the dialog again the field "Current Assignment:" reads "None".
The game also doesn't respond to the axis being moved.
