<b>Description</b>			
<p>I uninstalled KSP on my epic app. Changed to Russian on the epic app (at least I think it was). Reinstalled KSP and its still in English.</p> <p>What indicated that other languages might be possible was that the main KSP game is actually sitting inside a folder called "English"</p> <p>Anyone know how to change the language or is it currently impossible?</p> <p>Changing KSP's language is possible on Steam so it should be possible on Epic or not?</p>
