Description

ksc timewarp simply does not work. i'm running stock ksp 32-bit windows.

History

#1 - 12/16/2014 11:17 AM - gameguy600

update: entering VAB and coming back to the building selection seems to fix it temporarily, although it still pauses for 4 seconds every 33 days of ingame time.

#2 - 12/16/2014 01:03 PM - Arsonide

Time warp does not engage until you move your mouse cursor off of the bar the time warp control is on. Can you confirm that this is not what you are experiencing?

#3 - 12/17/2014 05:37 AM - gameguy600

oops. didn't notice that the timewarp bar does that.
