

Kerbal Space Program - Bug #3858

XL sized parts either missing or have no textures

12/16/2014 04:15 PM - gorgonopsid

Status: Closed	Start date: 12/16/2014
Severity: Low	% Done: 100%
Assignee:	
Category: Parts	
Target version:	
Version: 0.90	Language: English (US)
Platform: Any	Mod Related: No
Expansion:	

Description

KSP Version: 0.90.0

What Happens: XL sized parts either missing or have no textures

Mods / Add-Ons: none

Steps to Replicate: Download kerbal space program from steam on OSX.

Result: LFB KR 1x2, Launch escape system, and all XL size parts don't download, S1 SRB KD25k, and Kerbodyne KR-L2 Advanced engines have no textures.

Fixes/Workarounds: none known.

Other Notes/Pictures/Log Files:

History

#1 - 12/16/2014 05:27 PM - gorgonopsid

Fixes/Workarounds Manually delete all files in game directory and re-install

#2 - 12/16/2014 06:52 PM - quietghost

- Severity changed from Normal to Low

- Platform Any added

- Platform deleted (OSX)

Sounds like you updated with the patcher. Indeed without a clean install textures may be missing or messed up, as many of the Mk 3 parts are "new" in the sense that they dont replace the old Mk 3 parts exactly.

The Mk 3 parts downloaded without a problem. It's the 'Extra Large' sized parts that stuffed up after the update.

- File screenshot0.png added

- File KSP.log added

Ok, so things just got weird, all the Mk. 3 fuel tanks (not the adapter fuel tanks though) lost their textures after I installed NEAR. The only other thing that I did was use my logitech attack 3 joystick. I don't have a clue what is happening now and I really want some help.
