Kerbal Space Program - Bug #472

Engine status contains missing or extra data field

03/21/2013 07:11 AM - zerke2001

Status:	Closed		**Start date:**	03/21/2013
Severity:	Unworthy		**% Done:**	100%
Assignee:				
Category:	Controls and UI			
Target version:				
Version:	0.19.1		**Language:**	English (US)
Platform:	Any		**Mod Related:**	No
Expansion:				

Description

Description: Inside of the right-click context menu for engines, you will see an extra or missing data value. There is just a ':' colon that appears under the 'Status:' field.

How to reproduce: Right-click on any engine while in flight mode.

History

#1 - 03/21/2013 08:16 AM - gloowa

- File Bug_472.craft added

- Status changed from New to Confirmed

- Severity changed from Low to Petty

- % Done changed from 0 to 10

- Platform Any added

- Platform deleted (Windows)

Happens also on Linux, for all engines.

Attached .craft with all engines included.

#2 - 09/06/2014 02:23 PM - jonnyp

- Status changed from Confirmed to Closed

- Severity changed from Petty to Unworthy

- % Done changed from 10 to 100

Engine status displays correctly now. All engines on given test ship show 'Status: Nominal'
