

Kerbal Space Program - Bug #4823

VAB center of lift not working properly

04/29/2015 10:39 PM - drazed

Status:	Closed	Start date:	04/29/2015
Severity:	Low	% Done:	100%
Assignee:			
Category:	Gameplay		
Target version:			
Version:	1.0	Language:	English (US)
Platform:	Any	Mod Related:	No
Expansion:			

Description

Reproduce:

- open ANY plane in the VAB
- click the 'center of lift' button

The plane might be oriented wrong, but seems the lift is off regardless of the orientation. Specifically, plane facing OUT of the VAB, center-of-lift points DOWN instead of UP. Images attached that show what I mean.

History

#1 - 07/17/2016 09:27 AM - TriggerAu

- Status changed from New to Needs Clarification

#2 - 08/09/2016 01:38 PM - TriggerAu

- Status changed from Needs Clarification to Closed

- % Done changed from 0 to 100

Closing this report out for now. If you find it is still occurring in the latest version of KSP please open a new report (and this one can be linked to it.) For best results, the wiki contains really useful info for when creating a report <http://bugs.kerbalspaceprogram.com/projects/ksp/wiki>.

You can also ask questions about the bug cleanup in the forum here:

<http://forum.kerbalspaceprogram.com/index.php?/topic/143980-time-to-clean-up-the-bug-tracker/> and tag @TriggerAu to get my attention
