### Description

When trying to transfer fuel between two tanks by holding Alt and pressing the right mouse button the transfer UI won't show.

### Steps to Reproduce

- Hold Alt and right-click on one tank
- While holding Alt right-click on another tank

### Observed Behavior

The normal UI that shows the fuel drain and capacity etc. of the second tank shows when right-clicking on it.

### Expected Behavior

The UI should change when right-clicking on the second tank and show the In and Out buttons to transfer fuel.

I'm not a linux user, but I believe that in linux one has to use Rshift, not Alt. Try that.
