

Kerbal Space Program - Bug #524

Decoupler series don't work

04/06/2013 03:36 AM - MBobrik

Status:	Closed	Start date:	04/06/2013
Severity:	Normal	% Done:	100%
Assignee:			
Category:	Controls and UI		
Target version:			
Version:	0.19.1	Language:	English (US)
Platform:	Any	Mod Related:	No
Expansion:			

Description

When you place two or more decouplers connected in series into a single stage like SShot1 and SShot2, only the decoupler closest to the root node will decouple. All others do nothing (SShot6,SShot6). Of course when placed into separate stages, all works as it should (SShot3,SShot4,SShot5).

History

#1 - 11/20/2015 08:45 PM - Squelch

- Status changed from New to Resolved

- % Done changed from 0 to 100

All decouplers now act correctly. Tested in 1.0.5.1028

#2 - 07/17/2016 09:17 AM - TriggerAu

- Status changed from Resolved to Closed
