

Kerbal Space Program - Bug #551

Center of Lift Symmetry In SPH

04/28/2013 01:44 PM - Blackie_Leary

Status:	Closed	Start date:	04/28/2013
Severity:	Very Low	% Done:	100%
Assignee:			
Category:	Gameplay		
Target version:			
Version:	0.19.1	Language:	English (US)
Platform:	OSX	Mod Related:	No
Expansion:			

Description

When adding symmetrical wing parts in SPH to a ship imported from VAB the wings will be placed appropriately, however the center of lift will only take into account the wing the symmetrical feature placed. Only happens on ships that come from the VAB and only when adding to parts that came from the VAB

History

#1 - 11/30/2014 09:32 AM - Squelch

- Category changed from Bug Tracker to 81
- Status changed from New to Resolved
- % Done changed from 0 to 100

There have been many changes to the editor in the time since this issue was posted. Further changes that would address this issue are also pending. Please open a new report if this continues to be a problem.

#2 - 07/17/2016 09:17 AM - TriggerAu

- Status changed from Resolved to Closed
