

## Kerbal Space Program - Bug #8785

### Saitek X-55 HOTAS

04/10/2016 06:10 AM - Maschinenbauer

<b>Status:</b>	Needs Clarification	<b>Start date:</b>	04/10/2016
<b>Severity:</b>	Low	<b>% Done:</b>	0%
<b>Assignee:</b>			
<b>Category:</b>	Controls and UI		
<b>Target version:</b>			
<b>Version:</b>	Not Applicable	<b>Language:</b>	English (US)
<b>Platform:</b>	Windows	<b>Mod Related:</b>	No
<b>Expansion:</b>			

#### Description

This HOTAS consists of two devices which have long and simillar names in the config. The game cuts off the last few characters and therefore confuses stick and throttle. You can bind them properly, but all the controls bug out once you try to actually fly. This bug was already present in past versions and still exists in pre-release 1.1.
