Kerbal Space Program - Bug #9417

Advanced construction tutorial gives incorrect shortcut for undo on OS X

04/22/2016 09:36 PM - awang

Status:	Closed		**Start date:**	04/22/2016
Severity:	Low		**% Done:**	100%
Assignee:	NathanKell			
Category:	Gameplay			
Target version:				
Version:	1.1.0		**Language:**	English (US)
Platform:	OSX		**Mod Related:**	No
Expansion:				

Description
The advanced construction tutorial states that [CTRL] + [Z] undoes the last change made. This is incorrect on OS X, where undo is [COMMAND] + [Z]

History
