Target version:			
Version:	1.1.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:			

Description

The "Right Button" box suggests that the "Open multiple part menus" action should be invoked with the "shift" key (the colour of the text is purple), while the game requires the "alt" key for this action. The "shift" key is used for increasing the throttle.

The colour of the description should be yellowish.
