

Kerbal Space Program - Feedback #9640

CAMERA_MOUSE_TOGGLE input key not configurable from ingame

05/01/2016 09:37 AM - Brusura

Status:	Confirmed		
Severity:	Low		
Assignee:			
Category:	Controls and UI		
Target version:			
Version:	1.1.2	Language:	English (US)
Platform:	Linux, Windows	Mod Related:	No
Expansion:			

Description

Please add the option to configure the key backslash inside the game, right now you have to go in settings.cfg and manually change this:

```
CAMERA_MOUSE_TOGGLE {
primary = Backslash
secondary = None
group = 0
modeMask = -1
modeMaskSec = -1
}
```

It is been this way since the introduction of a key for mouse look

Thanks

Thanks
