Target version:				
Version:	1.1.3		**Language:**	English (US)
Platform:	Windows		**Mod Related:**	No
Expansion:				

Description

The orbits that appear because of contracts keep showing at the map after cancelling them, not sure if they disappear after they are completed (I tried to coplete one but I think it got bugged)

History

#1 - 07/17/2016 11:07 AM - TriggerAu

- Status changed from New to Needs Clarification

Can we get some extra info with logs, save file etc for this one?

thanks

#2 - 07/19/2016 06:29 PM - Lucinotion

- File KSP.log added

- File Test for Bugtracker 32bits.rar added

- Status changed from Needs Clarification to Updated

- % Done changed from 0 to 10

Here are the recuested files , go ahead and look at kerbin from the tracking station and you should be able to see the recuested orbit from a contract , but there is no contract because I cancelled it...
