

Kerbal Space Program - Bug #10102

F3 screen allows unpausing

07/10/2016 09:43 AM - rudi1291

Status:	Confirmed	Start date:	07/10/2016
Severity:	Unworthy	% Done:	10%
Assignee:			
Category:	Controls and UI		
Target version:			
Version:	1.1.3	Language:	English (US)
Platform:	Linux, Windows	Mod Related:	No
Expansion:			

Description

The F3 (or flight log) screen allows unpausing via KSPedia.

Reproduce:

- 1) Launch any vessel.
- 2) Press F3. The flight-log will open and the game will auto-pause.
- 3) Open KSPedia and unpause the game.
- 4) (optional) Close KSPedia and enjoy flying with a window in front of your craft

Expected: KSPedia shouldn't open, while the flight log is open, because the flight log blocks a big part of it anyway.

Observed: KSPedia opens, but the flight-log stays in front. Pausing/unpausing is possible using the button.

Workaround: Press F3 again. Everything should be back to normal.

History

#1 - 07/17/2016 11:20 AM - TriggerAu

- Status changed from New to Updated

- % Done changed from 0 to 10

Setting updated for confirmation during cleanup

#2 - 07/19/2016 02:33 PM - sal_vager

- Status changed from Updated to Confirmed

- Platform Linux added

Confirmed behaviour on Linux as well.
