Platform:	Windows	Mod Related:	No
Expansion:			

Description

GOG KSP 1.2.1.1604 Clean Install. No Mods:Sandbox

Personal Opinion:

First I will say that in my opinion the experiment Storage Unit should be the only stock part in game that can collect experiments, to keep it useful indefinitely.

How I found out this issue and my testing:

While watching Das's stream on twitch he saw a 'collect all' option in the action groups for the Mk2 Inline Cockpit. My testing on this is as follows:

1. In action groups there is ability to use 'collect all' like a experimental storage unit but it doesnt work when tested in game for the following:

Mk1 Cockpit
Mk1 Command Pod
Mk1 Inline Cockpit
Mk1 Lander Can
Mk1-2 Command Pod
Mk2 Cockpit
Mk2 Inline Cockpit
Mk2 Lander Can
Mk3 Cockpit
PPD-12 Cupola Module

2. The following probe cores do not have 'collect all' as an option in the action groups and the probe cores work as they should in my opinion:

Probodobodyne HECS
Probodobodyne OKTO
Probodobodyne OKTO2
Probodobodyne QBE
Probodobodyne RoveMate
Probodobodyne StayPutnik.

3. In action groups there is the ability to use 'collect all' and also works when in game just like the Experimental Storage Unit which they shouldnt:

Probodobodyne HECS2
RC-001S Remote Guidance Unit
RC-L01 Remote Guidance Unit

History

- File Action Group Collect All Bug.png added

- File RC-L01 acting like experiment storage unit.png added

Action Group Collect All Bug.png: Showing 'Collect all' bug in action groups that doesnt work in game relating to issue 1 above

RC-L01 acting like experiment storage unit.png: Showing the RC-L01 acting like an experiment storage unit as per issue 3 above

#2 - 06/24/2017 11:37 PM - bewing

The fake "Collect All" setting in the action groups is a bug. All the rest is intended behavior.

#3 - 06/25/2017 12:30 AM - Anth12

Good to know. Thanks
