Description

Hi,

Can't choose 1.3.1 Prerelease, absent from menu on this ticket system! Why? Have indicated 1.3.0 instead.

Please can you fix the Date/Time display (from KSC, top-left of UI) because it's really horrible/ugly!

1/ Replace **Years** by **Year** (plural form isn't required).

2/ Please add a space after **Day /** before the day number, because reading **Day1** instead of **Day 1** (for example) is simply horrible.

Already asked, but not fixed.

Thanks

Honestly, it should use the abbreviated form of using letters:
Y, D and T

Honestly, it was good prior 1.3.0, since, it's a regression! plan to return to previous 1.2.2...

Fixed in 1.4.2, this issue can be closed. Thanks!
