

Kerbal Space Program - Bug #16935

Memory Leak?

12/20/2017 02:11 PM - unrealxqt

Status:	Moot	Start date:	12/20/2017
Severity:	High	% Done:	0%
Assignee:			
Category:	Application		
Target version:			
Version:	1.3.1	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:			

Description

The Game is unplayable in the current state. Whenever I click launch button from the VAB it crashes.

History

#1 - 01/08/2018 02:38 AM - Ruedii

You have several mods installed.
(Several of which I believe are long obsolete and no longer needed)

Can you replicate this without the mods?

#2 - 01/16/2018 02:19 PM - Ruedii

- Severity changed from Critical to High

Reducing to high because it is seemingly mod related.

Should be increased back to critical if it can be replicated without mods.

#3 - 12/03/2019 09:56 PM - RafaHdz

- Status changed from New to Moot
