Platform:	PS4, XboxOne	Mod Related:	No
Expansion:			

Description

Holding down RB sets up fine tuning on rotations of parts. I believe in 5 degree increments. this works fine in all directions but left. RB+left d-pad is still the undo command. This was found in Cursor Preset but may be present in the other presets.

History

#3 - 01/18/2018 10:51 PM - Technicalfool

- Status changed from New to Confirmed
- Severity changed from Normal to High
- % Done changed from 0 to 10
- Platform PS4 added

Thanks for the report.
