Description

Multiple issues with contracts make the game unplayable in Career mode.

- After completing all items in a contract, and final green tick showing in Contract status window, Recover Vessel and Contract shows as uncompleted in VAB or Mission Control. First ran into this with the "Test LV-909 "Terrier" Liquid Fuel Engine splashed down at Kerbin.
- After "Accept Mission" in Mission Control, and Contract shows in Active tab, the Contract doesn't show up in VAB in the Contract window. Return to MC and Contract is not Active. After a few attempts, it will sometimes save the Contract as active and appear in VAB. Random. Doesn't seem to happen with all contracts, but I can't identify a pattern.

Seems to be an issue when the game transitions in the "Loading" screen between screens and it doesn't properly save progress. It makes the game **unplayable** in Career mode.
