- Severity changed from Very Low to Unworthy

I can confirm this.

Is it a shader bug on thumbnail or bad thumbnail?

If I remember right it also affects the VAB thumbnail but not the part in the VAB.

I'm going to cut the priority to unworthy it's only slightly dark and doesn't affect gameplay, that way it gets noted and fixed in the next TLC pass involving the issue, but doesn't take attention away from higher priority issues.
