

Kerbal Space Program - Bug #18114

Part icons missing in Science Facility

03/18/2018 07:05 PM - kubi

Status:	Resolved	Start date:	03/18/2018
Severity:	Low	% Done:	100%
Assignee:			
Category:	Controls and UI		
Target version:			
Version:	1.4.1	Language:	English (US)
Platform:	Linux	Mod Related:	No
Expansion:	Core Game		

Description

Description

The part icons in the Science Facility disappear, got truncated or shifted down from the bounding box / viewport depending on the graphics resolution.

The effect is similarly to [bug #17828] where part icons are truncated & shifted down in the VAB.

--> This might be a duplicate with the same root cause except that the VAB is faulty on all (?) resolutions, while the Science Facility is not (definitely on 1920x1080 for example).

Reproduce

- 1) In Steam (Linux) delete the game
- 2) Purge the whole folder as KSP leaves some binary and config files behind (not just the saved games)
- 3) Install the game from Steam
- 4) Start KSP
- 5) Change only the graphics resolution to the wanted setting
- 6) Start a new game in any mode (attached screenshots are from science mode)
- 7) Go to the science facility and check the right hand side area of part icons

Machine

Intel(R) Core(TM) i7-4790K CPU @ 4.00GHz
8GB RAM
NVIDIA Corporation GP107 [GeForce GTX 1050 Ti] (rev a1)

Debian Linux

deb <http://ftp.se.debian.org/debian/> buster main contrib non-free
deb <http://download.mono-project.com/repo/debian> stable-stretch main
