1. Go to launch pad and optionally launch rocket. Do not complete mission objectives
2. Recover Rocket
3. Arrive at space center screen - All facilities are closed so all you can do is ...
4. Press Esc
5. Press Restart Mission
6. Press Ok
7. Game hangs on black screen - loading animation in bottom right corner still runs. Must use task manager to close
8. Also cannot "Continue" mission after relaunching game. Must "Reset" When pressing continue, the button press animation plays but nothing else happens
