### Description

#### Setup:

While playing through the intermediate mission builder tutorial, instructor says to "Drag out a Time Since Node from the Logic Category". Later, he also says to "Find the Change Score Node from the Actions Category". After the tutorials are complete, you return to the mission menu.

#### Problem:

Hovering the mouse over the categories reveals no Logic or Actions Category. When either tutorial is complete, the mission menu shows them as incomplete.

#### Solution:

Change the dialog from "Logic Category" to "Utility Category" and change the dialog from "Actions Category" to "Currency and Score Category". If this is a matter of language strings, just make sure that the variable used to assign category titles is the same variable used in the dialog. Set the mission complete status accordingly once the final instruction is received and the user presses Done.

#### Version:

Microsoft Windows 10.0.16299.309  
KSP 1.4.1.2089 (WindowsPlayer x64) en-us
