Kerbal Space Program - Bug #19025

Mission validation reports inaccurate warning on spawn kerbal node

05/22/2018 11:17 PM - jclovis3

Status:	New	**Start date:**	05/22/2018
Severity:	Low	**% Done:**	0%

Target version:			
Version:	1.4.3	**Language:**	English (US)
Platform:	Windows	**Mod Related:**	No
Expansion:	Making History		

Description

The validation report is not able to properly tell that a Kerbal by name is assigned to a spawn kerbal node before being called upon by any other node that references him/her.

In this instance, you can see that Velentina is spawned while docked to the Start node. The warnings say she is not part of any vessel or spawn kerbal node and this is inaccurate.
