

Kerbal Space Program - Bug #19113

Pea and Pomegranate capsules face a different way in IVA as they do on the nav-ball

05/31/2018 02:36 PM - cy4n

Status:	New	Start date:	05/31/2018
Severity:	Low	% Done:	0%
Assignee:			
Category:	Parts		
Target version:			
Version:	1.4.3	Language:	English (US)
Platform:	OSX	Mod Related:	No
Expansion:	Making History		

Description

The KV-1 (Onion) capsule's 'down' for both IVA and on the nav-ball is as seen in figure 1. However, for the KV-2 (Pea) and KV-3 (Pomegranate) capsules, 'down' in IVA is as seen in fig. 2, and 'down' for the nav-ball remains the same as for the KV-1 (as shown in fig. 1)
