Description

Like topic and i think this problem persists since i started playing KSP some versions ago.

I didn't relized, that Jebediah died, suddenly my pilot is engineer Bill Kerman everytime a pilotseat gets autofilled even i have 2 other pilots ready (yeah, even Valentina doesn't get that jobs automaticly).

It's just a bit annoying, that the games doesn't seem to realize, that a pilot should go on a pilots seat automaticly, noone else.

- Version changed from 1.4.3 to 1.4.4

This is not happening everytime and i couldn't figure out why. Since i'm getting more people, not necessarily pilots, it seems to fit now.
