

Kerbal Space Program - Bug #19323

Icons not appearing in Research and Development for new 'Making History' parts

06/27/2018 10:30 PM - wneubert

Status:	New	Start date:	06/27/2018
Severity:	Low	% Done:	0%
Assignee:			
Category:	Parts		
Target version:			
Version:	1.4.4	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Making History		

Description

When you select a research node, you get a list of available parts. When you mouse over the parts a description window pops up, with a picture of the part. After installing 'Making History' new parts were available, but the Icon does not show.

I have KSP running on a Windows 8 laptop and a Windows 10 desktop and the problem occurs in both. This eliminates a lot of machine specific causes.

I have a picture with the 'Skiff' engine, but none of the new parts work.
