<b>Platform:</b>	OSX	<b>Mod Related:</b>	No
<b>Expansion:</b>	Core Game		

### Description

I have been playing this one save file for a while with no issues. One day, I randomly noticed things looking different (let me know if I should track these as separate bugs, they all appeared at the same time so they appeared to be related but may not be).

- 1) Contracts in the Available Contracts section stopped generating (Available Contracts.png). There are no more contracts that generate. I have warped many days, I have completed other contracts, but more contracts do not generate.
- 2) My current contracts and archived contracts lose who their agency is (Archived Contracts.png and Active Contracts.png). The flag for the agency is white and the agency name for all appearing contracts are "Kerbal Space Program" which isn't accurate.
- 3) The Kerbin map in the Tracking Station fills with "fake" contract location pins. I took Kerbin 1.png and within just a few mins I took Kerbin 2.png. If I hover over the pins it doesn't show me anything like normal contract pins do. Once I restart the game, this refreshes; pins are gone, but slowly fill in.

This originally sounded like a corrupt file issue (and it still might be) but I started a brand new career game. Unlocked 1, 2 and 3 tier science, completed many launches, launched into space, and contracts are not generating on that save file either.

I uninstalled the game and reinstalled the game, no change.

I have no mods installed.

### History

#1 - 01/20/2019 03:57 AM - GarrettMoody

- Status changed from New to Moot

After uninstalling, deactivating Steam Cloud backup, and reinstalling it appears to be working again.
