Target version:			
Version:	1.5.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Core Game		

Description

The majority of stock parts use bulkheadProfiles as a comma-delimited list of cross-section profiles, but this does not work in-game. Either the part must be set to a single profile in order to show up in the filter, or the filter needs to be changed to support comma-delimited values.
