Kerbal Space Program - Feedback #20242

Allow disabling of VesselDeltaV and deltaV related methods.

10/18/2018 01:32 PM - DMagic

Status:	Closed		
Severity:	Low		
Assignee:			
Category:	Plugins/Add-Ons		
Target version:	1.7.0		
Version:	1.5.0	**Language:**	English (US)
Platform:	Windows	**Mod Related:**	No
Expansion:	Core Game		

Description

It is unlikely that mods which calculate deltaV will convert to using the stock system. So it would be nice if the stock dV methods could all be disabled, and simple properties/fields added that would allow for mods to insert their own deltaV (and related values) into the stock fields for each stage and the total vessel fields.
