

Kerbal Space Program - Bug #20279

KSP Wheels physics bug

10/24/2018 03:00 PM - kolya5544

Status:	New	Start date:	10/24/2018
Severity:	Low	% Done:	0%
Assignee:			
Category:	Physics		
Target version:			
Version:	1.3.1	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Core Game		

Description

If you place the biggest rover wheels and will do a speed test on a runway, you will see it gives about 9-15 m/s maximally.

Now start at the same point, but when going forward, rapidly press A and D, that will make you up to 58.9 m/s in about 4 seconds.*=
