I've also noticed this problem on the Cheetah engine, but I don't have any pictures of that on hand.

It's a little hard to see, you need to scroll out from the part. But if you get far enough, yes, the lines are visible on the new Mk1 pod, most especially on the white variant.

There are two lines separating the heat-shield into "quarters", so to speak, and a couple running along the sides, from top to bottom.

- File Side View.png added

- File Rear View.png added

- Status changed from New to Confirmed

- % Done changed from 0 to 10

GOG KSP 1.5.1 (clean install no mods)

The rear view is even more obvious.

Confirmed

#3 - 12/24/2018 09:30 PM - Nebbie

- Platform Linux added

- Expansion deleted (Making History)

Looks a lot less obvious in 1.6 (and seemingly absent on the bottom), but still present.
