

Kerbal Space Program - Bug #20743

Addons & Mods Menu Selction

12/22/2018 05:55 AM - klesh

Status:	Closed	Start date:	12/22/2018
Severity:	Low	% Done:	100%
Assignee:	JPLRepo		
Category:	Controls and UI		
Target version:	1.7.0		
Version:	1.6.0	Language:	English (US)
Platform:	Windows	Mod Related:	No
Expansion:	Core Game		

Description

The main menu of KSP features a selection called Addons & Mods.

Clicking this opens your default web browser which then navigates to <https://www.curseforge.com/kerbal/ksp-mods/kerbal>

That results in the curseforge page saying:

_Not found

We were unable to find the page or file you were looking for._

The correct web address you need to be using instead is: <https://www.curseforge.com/kerbal>

History

As this is one of the first things a player may see, having it lead to the proper site shows an expected level of professionalism. Perception is reality, and, even though this may seem small, it may give a negative view of the overall polish of the game. As a seemingly easy fix for a seemingly greater reward, I am up voting this bug.

Oi, this appears to be fixed in 1.7.

Thank you.

#6 - 04/11/2019 06:33 PM - chris.fulton

- Status changed from Being Worked On to Ready to Test

- Target version set to 1.7.0

- % Done changed from 30 to 80

Indeed, changes have been made in 1.7 and this bug appears fixed. Setting to RTT to have the bug confirmed if it is fixed or not.

#7 - 04/12/2019 10:16 AM - Anth12

- Status changed from Ready to Test to Resolved

- % Done changed from 80 to 100

Just tested it in 1.6.1 and then 1.7.0

Resolved
