<b>Expansion:</b>	Core Game		

#### Description

The game displays error message, "can't deploy stowed part" after a fairing is deployed on some of the panels, even though they are fully exposed and unobstructed.

#### History

##### #1 - 01/07/2019 05:35 AM - Jeffrey\_214

The game displays error message, "can't deploy stowed part" after a fairing is deployed on some of the panels, even though they are fully exposed and unobstructed. Also it appears that the solar panels do not open even after they get to space, even though the module is unobstructed and a random number of them do it each time. I am talking about the XL solar panels and I have eight of them on a craft. They will all do it a different times so it is really weird.
